

It's here.

The Office of Student Wellness is pleased to announce the arrival of an innovative new tool!

The Student Wellness Mobile app!

The NH Student Wellness app provides a centralized hub of information and training for NH school personnel, emergency first responders, and other adults who interact with school-aged youth. The resources and events contained within this app are meant to support the development of the whole child including mental and behavioral health, resilience, and cultural identity. Working in collaboration with local communities, school districts, and individuals, The Office of Student Wellness and the NH Department of Education are committed to supporting students as they become fully productive members of society.

This tool was developed (in part) under grant numbered 1H79SM061875-01 from the Substance Abuse and Mental Health Services Administration (SAMHSA), U.S. Department of Health and Human Services (HHS). The views, policies, and opinions expressed are those of the authors and do not necessarily reflect those of SAMHSA or HHS.

What is the Office of Student Wellness?

The Office of Student Wellness is committed to the development of the whole child. We work, in collaboration with local communities, school districts, and individuals, to support students as they become fully productive members of society. Our approach allows us to affect real, meaningful change in the lives of all Granite Staters while remaining fiscally responsible, culturally competent, and youth guided.

Our initiatives focus on the individual and collective health of the community through a wide range of programs and services. These programs are currently being implemented in several pilot sites across the state. If you are interested in learning about how your community can benefit from our work, please contact us.

The Office of Student Wellness is housed within the Bureau of Special Education at the New Hampshire Department of Education.
